I want to remind you of the vision that I set for the District when I became District Governor:

*"The vision of Founder's District is to achieve the status of President's Distinguished through club and membership growth, and by inspiring leaders and communicators through excellence in education, training and programming. We will honor the past, while welcoming a future of innovation that will make Toastmasters appealing to the next generation.*

If you are a happy Toastmaster, and you are experiencing positive changes in your life, you will be excited about attending club meetings, participating in district events, and inviting guests to join in the fun. If the district leadership is meeting your needs and communicating the benefits of the Toastmasters educational program, then you will want to give manual speeches every time, pay your dues on time, and help the club to grow its membership. If all of this happens, Founder's District will realize the goal of President's Distinguished and it will be to the credit of you the member, the most important part of Toastmasters.
